

ACHIEVE

Academy for Clinical and Experimental Virology

Application open for young PI's to join the ACHIEVE board

Would you like to be an active part of the ACHIEVE Academy? ACHIEVE is a working group of the jGfV that focuses on students to postdocs from the life sciences, human and veterinary medicine. ACHIEVE wants to inspire students of life sciences, human and veterinary medicine for virology. Furthermore, ACHIEVE wants to help young virologists to advance professionally in their field. In addition to tailor-made workshops, we now offer a monthly "how to..." methods seminar and plan to launch a mentoring program in 2024.

If you are interested in participating in these activities as board member, please send your CV (1 page) and a short letter of motivation as combined PDF to achieve@g-f-v.org. We highly encourage young PI's (group leaders, Junior Professors...) to apply as board member until **05/15/2023**.
