GfV

The Swedish Society of Virology (SSV) will hold its annual **Smögen Summer Symposium** on Virology on **August 22-24, 2024**. In light of a newly established partnership, the GfV is offering to support **three** of its **young members** (PhD students and postdocs up to 3 years, as well as physicians in training) with a **travel grant of 300€ each**. This contribution will help cover some of the costs associated with participation and accommodation. The deadline for abstracts submission is May 31. Additionally, attendees will have the opportunity to join a research course at their own expense, occurring from August 19-21, prior to the symposium. To get an insight into previous Smögen Meetings, please visit <https://www.swedishvirology.se/member-info/>.

If you are interested, please send your application as a single PDF to jGfV@g-f-v.org by **01.05.2024**. Your application should include a brief CV (1 page) and a motivation letter (max. 1 page) explaining your desire to attend the meeting.
