

jGfV Virtual Lecture Series –

Now Available On Demand!

We are happy to announce that the **jGfV Virtual Lecture Series** is now being recorded and made available **on demand** for all **GfV members**. You can now revisit exciting lectures or catch up if you missed them **within 3 months** of upload via the **GfV Cloud**.

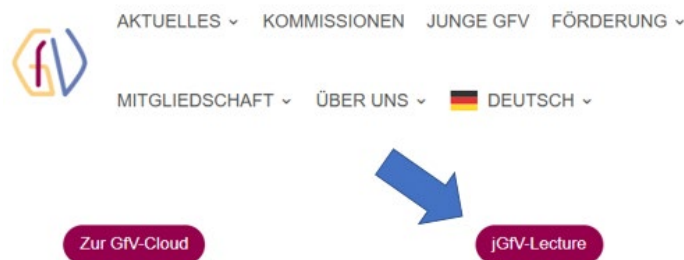

Now Streaming:

The first available lecture „**How to eradicate a virus**“ features **Dr. Sindy Böttcher**, who gives an update on **polio virus eradication efforts**, including the detection of vaccine-derived poliovirus in wastewater samples across Europe and **Prof. Klaus Überla** on innovative vaccination strategies aiming at inducing sterilizing immunity.

How to Access the GfV Cloud & On-Demand Lectures:

Access to the GfV Cloud is exclusive to GfV members and is provided via a **personal private link**. Here's how to get started:

1. Visit the **Membership area** on the **GfV homepage**:
<https://g-f-v.org/en/zugangslink-anfordern/>
2. Request your private link – it will be sent to your **registered E-Mail address**.
3. Once logged in, look for the **jGfV-lecture button** on the right side to explore the lectures.

Enjoy fascinating lectures anytime and anywhere!
